

Cookie Policy

In compliance with EU cookie legislation, this page serves to inform visitors of cookies used on this website.

What is a cookie?

A cookie is a small amount of data that is sent from a website to your computer or mobile phone's Internet browser. It is stored on your device's hard drive and is used by websites to track online traffic flows. Unless you have programmed your computer or browser to reject cookies, most websites you visit will be using them to track your activities.

How we use cookies

The Catt's Eye View uses cookies to gain a better understanding of our site's visitors. This applies to all visitors to our website, regardless of where in the world they live. Whenever a person visits www.tonycatt.co.uk, we collect basic information about their behaviour on our site through the use of Google Analytics cookies. This includes things like what pages have been visited and how they found our website. The information we gather for these purposes does not identify anyone and we make no attempt to find out who has been to our site. What we do gain from this information is a better understanding of how many people visit our site, what are they interested in and how we can improve it. For more information on Google's Privacy Policy, see http://www.google.com/intl/en_uk/analytics/privacyoverview.html.

Additionally, we use cookies to verify logged in users.

Online Contact Forms

For convenience, we have online contact form that allow site visitors to enquire about the Catt's Eye View. This information is sent to us via email and is not stored on our site through cookies. We will not give your contact information to any other organisation unless legally obliged to do so.

Rejecting Cookies

Most web browsers allow some control of most cookies through the browser settings. To find out more about cookies, visit for example www.allaboutcookies.org. To opt out of being tracked by Google Analytics across all websites visit <http://tools.google.com/dlpage/gaoptout>. For information about how to reject cookies on your mobile phone's web browser, see your handset manual.
